Projects

Find My City (Takes time to load)   Agile, CSS, Heroku, HTML, PostgreSQL, Rails, RSpec, TDD, TravisCI
Search for cities. Sort cities by criteria. Major urban cities have scores that users can compare with other cities. Users can save their favorite cities.

Sweater Weather   APIs, Rails, PostgreSQL, RESTful, RSpec, TDD, TravisCI
Find weather data for the city you are traveling to. Know what the weather will be like whether you arrive three hours later or three days later.

Pawty-Trainer   Continuous Integration, CORS, CSS, GraphQL, HTML, PostgreSQL, Rails, React, TDD
Track your dog's training. Manage a training schedule via calendar. Users can customize dogs through name, breed, age. CRUD functionality.
